ECONOMIC NEWS

Bank of Botswana keeps the policy rate unchanged at 5.5 percent - The Bank Rate was maintained at 5.5 percent at the Monetary Policy Committee (MPC) meeting held on June 20, 2017. The outlook for price stability remains positive as inflation, although increasing slightly in the short term, is forecast to remain within the 3-6 percent objective range in the short to medium term. However, inflation increased marginally from 3.4 percent in April to 3.5 percent in May 2017. Going forward, the projected modest increase in inflation, in the short term, is due to higher electricity and water tariffs, and international oil prices.

COMPANY NEWS

Sefalana Further Cautionary Announcement

Further to the previous cautionary announcement, the board of Sefalana has re-affirmed that the group's consolidated profit before tax for the year ended 30 April 2017 will be lower than the comparative previous year. This is stated to be a result of the challenging trading environment and specifically due to the reduced level of spending in the economy. The group's results will be published towards the end of July 2017.

Further to the previous cautionary announcements issued and the update provided in May 2017 on a potential transaction in the region, shareholders have been advised that negotiations with a third party are now in their final stages. If successful, the transaction might have an effect on the share price of the company's shares. Further updates will be provided to shareholders in due course. Accordingly, shareholders are advised to exercise caution when dealing in the company's shares until a further announcement is made.
