ECONOMIC NEWS

Bank rate unchanged at 5%

The Monetary Policy Committee of the Bank of Botswana decided to maintain the Bank Rate at 5% at the meeting held on June 19, 2018, citing that the outlook for price stability remains positive as inflation is forecast to be within the 3% - 6% objective range in the medium term. Inflation decreased marginally from 3.4% in April to 3.3% in May 2018, and was within the objective range.

Subdued domestic demand pressures and the modest increase in foreign prices contribute to the positive inflation outlook in the medium term. However, this outlook is subject to upside risks emanating from the potential rise in administered prices, commodity prices and government levies and/or taxes beyond current forecasts. Restrained global economic activity, technological progress and productivity improvement present downside risks to the outlook.
