

BANK OF BOTSWANA

March 14, 2019

PRESS RELEASE

BANK OF BOTSWANA HEADQUARTERS REDEVELOPMENT PROJECT

The Public is informed that the Bank of Botswana will embark on a major redevelopment of its Headquarters, commencing in March 2019 and expected to be completed in June 2022.

This is part of the Bank's broader strategic programme designed to augment office resources, modernise and build a more secure and cost-effective facility. Construction will be carried out in two (2) phases. Phase 1 will involve the redevelopment of the southern part of the headquarters premises and Phase 2 refurbishment of the northern half.

During the redevelopment period, the Banking Hall, Banking Supervision and Research and Financial Stability Departments will relocate to temporary office accommodation at Plot 76415 Botswana Road in the Main Mall (former Botswana Telecommunications Corporation (BTC) Commercial Centre Offices). Consequently, Central Banking services such as exchange of old coin, mutilated banknotes and coin and treasury services will be offered at the Bank's premises at Botswana Road from March 18, 2019. All other Bank functions will remain at Headquarters at Plot 17938, Khama Crescent.
